KOTTAYAM-9, KERALA STATE, INDIA

THE RUBBER BOARD
Kottayam-9, Kerala State, India

The Rubber Board is a statutory body constituted under the Rubber Act, 1947.

The functions of the Board as defined under the Act are :— (1) To promote by such measures as it thinks fit the development of the rubber industry so far as the production and marketing of rubber. (2) Without prejudice to the generality of the foregoing provision the measures referred to therein may provide for :— (a) undertaking, assisting or encouraging scientific, technological or economic research; (b) training students in improved methods of planting, cultivation, manuring and spraying; (c) the supply of technical advice to rubber growers; (d) improving the marketing of rubber; (e) the collection of statistics from owners of estates, dealers and manufacturers; (f) securing better working conditions and the provision and improvement of amenities and incentives for workers; and (g) carrying out any other duties which may be vested in the Board under rules made under this Act.

It shall also be the duty of the Board :— (a) to advise the Central Government on all matters relating to the development of the rubber industry, including the import and export of rubber; (b) to advise the Central Government with regard to participation in any international conference or scheme relating to rubber; (c) to submit to the Central Government and such other authorities as may be prescribed, half-yearly reports on its activities and the working of this Act; and (d) to prepare and furnish such other reports relating to the rubber industry as may be required by the Central Government from time to time.

The Board has a full-time Chairman, appointed by the Government of India and 24 other members representing various interests.

<i>Chairman</i>	:	T. V. SWAMINATHAN, I. A. S.

Date

2-8-75

The Rubber Board is a statutory body constituted by an Act of Parliament (XIV of 1947) to promote the development of the Rubber Industry in India. The Board functions under the administrative control of the Ministry of Foreign Trade, Government of India. Collection of statistics relating to rubber is one of the functions of the Rubber Board under the Rubber Act. This publication, which is the twelfth in the series, was compiled from the statistics so collected.

The scope and coverage of the publication have been expanded. Certain tables have been renumbered and minor changes have been made in their order.

The area figures given in this publication are compiled from the registration records maintained by the Rubber Board and are actuals.

The data relating to production, consumption, indigenous purchase and stock are compiled from the various returns received from rubber growers, dealers and manufacturers of rubber goods. The import statistics of natural rubber and synthetic rubber are collected from the manufacturers. All these figures, except import and indigenous purchase include estimates also for those who have not submitted the specified returns.

It may be stated that the statistics published in this volume is drawn not only from the Board's records but also from various other sources as indicated in the tables themselves.

The attention of readers interested in current statistics of production, import, consumption etc. is drawn to the 'Monthly Statistics of Rubber' published by the Board.

Suggestions for improving the coverage and usefulness of the publication will be appreciated.

The co-operation extended by producers, dealers, manufacturers and other organisations, for making available the relevant data for inclusion in this publication, is gratefully acknowledged.

I record my appreciation of the great efforts taken by the Statistical Section under the competent leadership of Shri R. G. Unni, Statistician. Mention must also be made of the devoted endeavours of Smt. E. Lalitha Kumari, Statistical Officer.

Kottayam,
17-2-1972.

T. V. SWAMINATHAN, I. A. S.,
Chairman.

CONNOTATIONS
of Certain Terms Used

Producer	: Owner of a rubber area who has got himself registered as owner of that area in the books of the Rubber Board.
Holding	: Unless the contrary is stated, the word means a rubber area contiguous or non-contiguous, aggregating 20.23 hectares (50 acres) or less and registered with the Board under a single ownership.
Estate	: Land contiguous or non-contiguous, aggregating more than 20.23 hectares (50 acres) planted with rubber and registered with the Board under a single ownership is treated as 'estate.' However, estates/holdings situated in different talukas even if they are under a single ownership are registered separately.
Newplanted area	: Land not previously planted with rubber.
Replanted area	: Land previously planted with rubber and planted again with rubber removing the old rubber trees.
High yielding area	: Area planted with clonal seedlings and clones (budgrafts) approved by the Rubber Board.
Tappable area	: Area which is estimated to be tappable.
Yield per hectare/acre	: Average yield per hectare/acre of tappable area.
Manufacturer	: A manufacturer of rubber goods who has taken out a licence from the Board for acquiring natural rubber.
Dealer	: A dealer in natural rubber who has taken out a licence from the Rubber Board for dealing in rubber. Under the Rubber Act all producers should get themselves registered as owners of their rubber area in the books of the Rubber Board and all dealers of natural rubber and all consumers of Rubber (manufacturers of rubber goods) should take out licences from the Rubber Board.
Natural Rubber	: Include the dry rubber content (drc) of all grades and qualities of natural rubber.
Synthetic rubber	: Include oil content of oil extended rubber and the total solid content of latices.
Reclaimed rubber	: Comprise both natural and synthetic reclaimed rubber.
Stocks	: Data for stock refer to the end of the period indicated.

Statistically Speaking.....

The progress of the rubber plantation industry during the last few years has been phenomenal.

The production of natural rubber which was only 25,697 tonnes in 1960-61 steadily increased to 81,953 tonnes in 1969-70 and to 92,171 tonnes in 1970-71. The annual rate of increase in production during 1969-70 and 1970-71 was 15.3% and 12.4% respectively. The yield per hectare has also increased steadily during the period.

The number of rubber growing units registered with the Board at the end of March, 1971 stood at 111,578, out of which 649 were estates of above 20.23 hectares (50 acres) in size. The registered area at the end of March, 1971 was 203,098 hectares. The share of estate sector in the total area at 1970-71 was 33%.

The area under high yielding varieties of rubber increased to 64.2% of the total area in 1970-71. In 1960-61 the corresponding percentage was only 35.8. The progress of replanting of old and low yielding areas with high yielding varieties of rubber continued to be poor.

The production of synthetic rubber which was 25,868 tonnes in 1968-69 increased to 28,689 tonnes in 1969-70 and to 29,791 tonnes in 1970-71.

During the last two years there has been a fall in the rate of increase in the consumption of rubber. The rate of increase in the total consumption of natural and synthetic rubber in 1969-70 and 1970-71 was 2.6% and 3.0% respectively as compared with 16.4% in 1968-69. The lower growth rate was mainly due to labour troubles in some tyre and non-tyre units and closure of some non-tyre units in West Bengal. The actual consumption of natural and synthetic rubber during the last three years was as follows:

	(Tonnes)		
	1968-69	1969-70	1970-71
Natural Rubber	86,615	86,213	87,237
Synthetic Rubber	27,238	30,636	33,160
	<u>113,853</u>	<u>116,849</u>	<u>120,397</u>

There has been an increase in the use of synthetic rubber from 23.9% in 1968-69 to 27.6% in 1970-71.

No licence was issued during 1970-71 for import of natural rubber. However 2469 tonnes of natural rubber arrived during 1970-71 utilising the licences issued during 1969-70. During the year 1970-71, 5014 tonnes of synthetic rubber were also imported. The import of natural and synthetic rubber during 1969-70 totalled to 17,821 tonnes and 4,736 tonnes respectively.

No licence for import of NR has been issued during 1971-72 either. The import of special purposes Synthetic Rubber is also canalised through the State Trading Corporation.

The maximum prices for various grades of natural rubber which were notified on 20th October, 1967 were rescinded with effect from 16th November, 1968. However, the minimum prices notified for the various grades on the same date continued to be in force till 12th/14th September, 1970 when they were revised upwards. The revised minimum price for RMA I grade rubber is Rs. 520 per 100 kgs. The minimum price prior to the revision for the same grade was Rs. 415 per 100 kgs.

There has been a general fall in the market price of natural rubber during the last two years mainly due to the low off take by the consumers. The price at Kottayam market for RMA 1 grade rubber when the ceiling was lifted on 16th November, 1968 was Rs. 515 per 100 kgs. The prices gradually improved and touched Rs. 607 by the end of March, 1969. Since then it steadily declined and reached Rs. 472/- when the notification revising the minimum prices was notified in September, 1970. After the notification of revised minimum prices a number of complaints have been received from rubber growers and their associations stating that the growers are finding it difficult to dispose their rubber at notified prices. To ensure availability of notified prices to growers the Government of India directed State Trading Corporation of India Ltd. to enter the market and to lift rubber at notified prices. The State Trading Corporation entered the rubber market on 26th October, 1970 and is purchasing rubber produced by small growers through co-operative marketing societies and other co-operative societies equipped with licences to deal in rubber. Till the end of March, 1971 State Trading Corporation purchased 5995 tonnes of natural rubber and sold 1825 tonnes to manufacturers of rubber goods.

On 16th November, 1969 Government of India fixed the prices of various grades of synthetic rubber produced in India under the Essential Commodities Act, 1955. The price fixed for Synaprene—1500/1502 grade rubber is Rs. 440 per 100 kgs. (ex-works) which is less by Rs. 75 over the sales price prevailed prior to the fixation. On 25th April, 1970 Government of India directed the Tariff Commission to enquire into the fair selling prices of synthetic rubber and furnish its recommendation to the Government.

Export of manufactured rubber goods registered a steady increase during the last few years. During the year 1970-71 rubber goods worth Rs. 96.46 million were exported compared with Rs. 78.78 million in 1969-70 and Rs. 72.79 million in 1968-69.

World production of natural rubber during 1970 has been estimated by the International Rubber Study Group at 2895.0 thousand tonnes. It represents an increase of about 0.4% over the production during 1969. The supply and consumption of natural and synthetic rubber during 1970 have been estimated by the Group as follows:

	(In thousand tonnes)	
	Natural	Synthetic
Supply	2927.0	4902.5
Consumption	2992.5	4625.0

The supply figures include deliveries of about 33000 tonnes of natural rubber from Government stockpiles and additional imports of about 35000 tonnes of synthetic rubber from Eastern Europe. The estimate of synthetic rubber production and consumption do not include synthetic rubber produced in the USSR, in IRSG non-member countries in Eastern Europe or in mainland China, except for such supplies recorded in import statistics of the rest of the world.

The price of natural rubber in Singapore market showed more or less an upward trend till the middle of August 1969. Since then it registered a downward trend. The average price for RSS 1 rubber in 1970 was 124.4 Singapore dollars (Rs. 306) per 100 kgs. compared with 153.9 Singapore dollars (Rs. 377) in 1969.

March	527.50	423.75		593.64	483.68
Average	413.87	558.89	—	—	\$15.70

Note : Till 16th December 1963 maximum and minimum prices of rubber were under control (vide Table 38). On that date, Government lifted price control. However on 19th Dec. 1963 Govt reintroduced minimum prices which were in force prior to decontrol. These minimum prices continued to be in force till 19-10-1967. Even after the removal of ceiling on the maximum, the prices remained more or less static till the middle of June 1965. Since then they showed an upward trend. The fluctuations in prices from April 1965 to Sept. 1967 are given in the table.

On 20th October 1967, Government revised minimum notified prices and introduced ceiling on the maximum prices also (Vide table 38). However on 16th November 1968, Government again lifted maximum ceiling prices. The variations in price since then are also given in the table.

	MINIMUM	127.00	279.99	137.00	302.03	149.00	328.49	154.75	341.16	148.50*	327.40*	415.00\$	520.00\$

Note : *Excluding cess. From 28th April 1962 sales tax was also removed from the price and the notified maximum and minimum prices for RMA rubber were reduced to Rs. 325.20 and Rs. 321.00 per 100 Kg. respectively. On 16th Dec. 1963 Govt. lifted both maximum and minimum notified prices. But subsequently on 19th Dec. 1963 it reintroduced the minimum price which was in force prior to control. The minimum price then fixed was in force till 19-10-67.

\$Excluding cess and sales tax. On 16th Nov. 1968 Govt. lifted the maximum ceiling prices.

*Figures in columns 3, 5, 7, 9, & 10 give equivalent rates per 100 Kg./100 lb., as the case may be.

†Rounded.

1970-71	6047	21312147	21358423
		22792875	22798922

Note : 1. The rate of excise duty effective from 1947 has been as follows :

From I-10-1947 to 31-7-1955 Rs. 0.50 per 100 lbs. (Rs. 1.10 per 100 Kgs. approximately)
 " 8-1955 to 31-3-1958 Rs. 6.25 per 100 lbs. (Rs. 13.79 per 100 Kgs. approximately)
 " 4-1958 to 31-3-1961 Rs. 13.80 per 100 Kgs.
 " 4-1961 onwards Rs. 30 per 100 Kgs.

2. upto 31-3-1961 the excise duty was collected from producers of rubber. Since then it is collected from manufacturers. However excise duty on sole creps is still collected from producers.

4. Figures for the period 1961-62 to 1970-71 under column (2) relate to the collection of arrears from producers.

Table 50

REVENUE FROM PRICE DIFFERENCE ON IMPORTED RUBBER

(Rupees)

Note: From 1956-57 onwards, the Board is collecting the difference between the landed cost of imported natural rubber and the Indian controlled price whenever the former is less than the latter.

Table 52

DAILY RATES OF WAGES FOR RUBBER

Wage rates for rubber plantation workers in Kerala, Tamil Nadu and Mysore settlements reached between employers and employees in the respective states.

A. Time Rates

	Field workers (Basic wage in Rs.) Per day	Factory workers (Basic wage in Rs.) per day
Men	3.18	3.38
Women	2.80	2.95
Adolescent	2.00	2.13
Children	1.59	—

B. Piece Rates

$$\text{Guaranteed Time Rate (Basic wage)} = \text{Rs. } 1.68$$

In addition to the G. T. R. the minimum piece rates to be paid to the tappers are :-

Class of rubber field	Yield per acre per annum (Kg)	Standard out-put (Kg)	Rate for Standard output (Paise per Kg)
I	Below 113	1.5	112.7
II	114 to 181	2.5	62.6
III	Above 181 to 272	4.5	37.6
IV	Above 272	6.5	26.0

C. Dearness Allowance

In addition to basic wages, time rated and piece rated workers are eligible for DA, subject to annual adjustment, on the scale current now ie. 1.1 paise per day per point rise over 135 in the average consumer Price Index number for Mundakayam, without any ceiling. The average consumer price Index number for Mundakayam during 1968 and 1969 was 187 each. On this basis the DA rate will be 57.2 paise (or say 57 paise) per day during 1969 and 1970.

- Note : (1) The minimum piece rates recommended are such that together with the G. T. R. the total earning on the standard output will be Rs. 3.37 in each class of field. The piece rates are worked out on this basis.
- (2) The over pound rates in force till 30-6-69 were 7 paise per $\frac{1}{2}$ kg for Class I and II fields and 10 paise per $\frac{1}{2}$ kg for class III and IV fields. With effect from 1-7-69 the over pound rate was revised to 15 paise per $\frac{1}{2}$ kg for all the four classes of fields.
- (3) With the effect from 1-4-71 the DA has been further raised by 30 ps. per day.
- (4) The minimum wages for rubber plantation workers were revised with effect from 1-4-70 by a notification issued by the Government of Kerala. The revised wage rates are practically the same as those given in the table. According to the notification adult female employed as tappers shall be paid the time rate fixed to an adult male, and time rate tappers are to be given a differential of 40 ps. per day over the time rate of an adult male worker.
- (5) If field average fall below the standard output the 'Special formula' as in the past will continue to be applied.
- (6) Nothing in the settlements will adversely affect any existing benefits.

Source : (i) Memoranda of settlement dated 10th and 30th May 1969.

(ii) Notification No. 25570/ H1/ 68/ LSD dated 25th March 1970 issued by Government of Kerala.

(iii) Memoranda of settlement dated 10th November 1970 and dated 10th June 1971.

PLANTATION WORKERS

were revised in 1969 on the basis of the
The revised wage rates are given below :-

TAMIL NADU (From 1-1-'69)

A. Time Rates

(i) Field workers and general workers

	For 100 acres & above (Basic wage in Rs. per day)	For below 100 acres (Basic wage in Rs. per day)
Adult male	3.18	3.08
Adult female	2.80	2.70
Adolescent	2.00	1.90
Children	1.59	1.49

Factory workers

Differentials over field workers' rates of wages per day (paise)	
Adult male	22
Adult female	17
Adolescent	15

B. Piece Rates

Guaranteed Time Rate (Basic wage) : Rs. 1.68
In addition to the GTR the piece rates to be paid to the tappers are :-

Class of rubber field	Yield per acre per annum (Kgs)	Standard output (Kgs)	Rate for standard output (Paise per $\frac{1}{2}$ Kg)
I	Below 113	1.5	56
II	Above 113 upto 181	2.5	34
III	Above 181 upto 272	4.5	19
IV	Above 272	6.5	13

C. Dearness Allowance

In addition to basic wages time rated and piece rated workers are eligible for DA at the rate of 1.1 paise for every point increase over 135 in the average consumer price Index number for Mundakayam. The average consumer price Index number for Mundakayam during 1968 and 1969 was 187 each and that is to be followed till March 1971. The average for 1970 will be followed for the year ending 31-3-72. On this basis the DA till end of March '71 works out to 57.2 paise (or say 57 paise) per day.

Note : (1) With effect from 1-4-69 the over pound rates were revised as 21 paise per $\frac{1}{2}$ kg for class I & II fields and 27 paise per $\frac{1}{2}$ kg for class III & IV fields.

(2) Time rated tappers are to be paid existing differential wages.

Source: Memorandum of settlement dated 8th August 1969.

MYSORE (From 1-4-'69)

A. Time Rates

The Basic wage and dearness allowance consolidated and revised as follows :-

	Men (Rs. per day)	Women (Rs. per day)	Adolescent (Rs. per day)	Children (Rs. per day)
From 1-4-69	3.15	2.52	1.89	1.58
,, 1-4-70	3.35	2.68	2.01	1.68
,, 1-4-71	3.50	2.80	2.10	1.75

The existing differentials in wage, wherever they are paid will continue.

B. Piece Rates

Guaranteed Time Rate :

From 1-4-69	Rs. 1.65
From 1-4-70	Rs. 1.85
From 1-4-71	Rs. 2.00

In addition to the GTR the following rates are paid to piece rated tappers

Class of rubber field	Yield per acre per annum (Kgs)	Standard output (Kgs)	Rate for standard output (Paise per $\frac{1}{2}$ Kg)	Rate for output above the standard output (Paise per $\frac{1}{2}$ Kg)
(1)	(2)	(3)	(4)	(5)
I	Below 115	1.5	55	9
II	Above 115 upto 180	2.5	33	9
III	Above 180 upto 270	4.5	18.3	12
IV	Above 270	6.5	12.7	12

Note : The settlement will not affect prejudicially the terms and conditions of service presently enjoyed by any workman.

Source: Memorandum of settlement dated 20th June, 1969.

* Based on Provisional estimates.

Note.—Foodgrains indices for 1966-67 and 1967-68 are based on Partially Revised Estimates, while those for 1968-69 and 1969-70 are based on Final Estimates. In the case of other crops, indices for 1966-67 to 1968-69 are generally based on partially revised estimates. Indices for 1969-70 are generally based on Final estimates. The indices for these years are subject to revision.
